## Education

### **Lighthouse Labs**

**Vancouver, BC Canada**

*Web Development Bootcamp*

*October 2014*

- Being new at programming Lighthouse opened my eyes to the world of full stack web design. Coding was not the only thing expected with this boot camp. Self-teaching and extremely organised time management were necessary to flourish in this environment.

### **University of Victoria**

**Victoria, BC Canada**

*BFA, Visual Arts*

*June 2012*

- With Visual Arts we were forced to look at the bigger picture. I feel as though going through a program like this helps someone become a great problem solver. A lot of the classes that I took were done on the computer so my design oriented skills on a computer are highly refined. I consider myself a quick learner that is doesn't say no to a challenge.

### **St. Georges**

**Vancouver, BC Canada**

*Highschool*

*June 2007*

## Skills

- Ruby
- Html
- CSS
- Rails
- HTTP/REST
- Javascript
- JQuery
- Ajax
- Sinatra
- Photoshop
- Final Cut
- InDesign

## Projects

### **Rotten Mangoes**

*Ruby on*

*Rails*

- Developed an interactive movie website where a user is able to create an account, add movies, rate movies, and make reviews on movies that are already in the database.

### **Creep**

*Sinatra*

- As a midterm project a colleague and I built a very strong picture viewing and sharing app modeled off of sites like Instagram or Flickr. Our site gave users the opportunity to add, review, rate, and comment on pictures already uploaded to the site.

### **Contact List App**

*Javascript, JQuery, CSS*

- A static webpage that uses ajax requests to display your contacts in an orderly and well presented fashion. Integrated into the program were features to search and edit your contacts.

## Professional Experience

### **Park and Johnston Roofing**

**Victoria, BC Canada**

*Steep Slope Shingler*

*March 2012 – August*

*2014*

- For the first couple of months working for the company I was in charge of cleanup and material placement on site
- I moved up the ranks quickly and was able to fulfill all duties associated with steep slope shingling within 3 months.

### **University First Class Painters**

**Victoria, BC Canada**

*Painter*

*May 2010 – Aug 2011*

- As an experienced painter my manager saw it fit to have me work as a one man team. I was responsible for every aspect from the beginning to end of each project. I was prolific with my turnover rate and received a customer rating of 5 out of 5 on each of the 6 projects that I completed
